

EZE-GRAZE POWDER

Reg. No./Nr. V26646 Act/Wet 36/1947
Namibia Reg. No./Nr. N-FF3504

A cost effective digestive modifier improving the digestive process by supporting rumen microorganisms, resulting in better utilization of unpalatable poor quality plant material

CONTAINS

Polyethylene glycol [PEG] 930 g/kg
Polyvinylpyrrolidone [PVP] 10 g/kg
Ethyl concentrate [MDDS] 50 g/kg
Calcium hydroxide [Ca(OH)₂] 10 g/kg

1-2 g per animal
per day

3-4 g per animal
per day

Administer in feed (lick or pellets) or in drinking water

PREVENT

The toxic effects of tannins and terpenes on rumen microorganism, liver- and digestive enzymes

+ **The binding of plant proteins with tannins rendering them unavailable**

Support your animal's rumen microorganisms & assist in improving rumen function in the dry season

Where every gram makes a difference!
